## **History in Nephrology**

***Legends whose contributions inspire us even today!***

***Management of Diabetic Nephropathy - Finerenone***

---

**Finerenone was discovered by Dr. Peter Kolkhof  
and colleagues at Bayer AG - 2014**

# Peter Kolkhof

---

**Dr. Peter Kolkhof**  
pharmacologist and principal scientist  
at Bayer AG, Germany

---

## **Scientific significance**

**Finerenone represents a third – generation mineralocorticoid receptor antagonist, developed to improve cardio –renal outcomes**

---

**Kolkhof, et al. (2014)**

**“Finerenone (Bay 94-8862): a novel selective non –  
steroidal mineralocorticoid receptor antagonist”.**

***Published in Journal of Pharmacology and Experimental  
Therapeutics.***
